

The Website we can replicate is the following:

<https://mdtrc.mcmaster.ca/>

Let's begin by replicating the home page first:

Tabs:

Home

About (we will think about the content of this page later)

People (copy the style of the people page on the chosen website)

Initiatives & Services (we will think about the content of this page later)

Under the tab bar, similar to the chosen website, have a short aerial clip of McMaster, with the McMaster, DeGroote and the Centre's logos. See if we can use this video

(https://www.youtube.com/watch?v=_jqzInpZVCs)

(I will send you the logos)

Then

The "message from the director" section, where we will use Benson's image and will ask him for the text content.

Then

Vision and Mission sections similar to the chosen website. We will use our own images.

Then the Grey contact information section and then the McMaster Maroon section at the end.

Let's wait on the domain name until we can get confirmation from Benson.
